### **DETAILED ACTION**

1. The following is an examiner's statement of reasons for allowance: Claim 30-31 in the instant application have not been rejected using prior art because no references, or reasonable combination thereof, could be found which disclose, or suggest, a retractor with a member, a leg pivotally connected to the member with a head mount for a retractor blade, an operator with a threaded shaft and a nut located between two projections of the legs. Rotation of the operator adjusts the position of the leg via the nut between the two projections, which then adjusts the position of a retractor blade mounted on the leg. Bookwalter US 4,424,724 is the closest piece of prior art but but fails to disclose the features just discussed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
